13 CLIMATE
ACTION

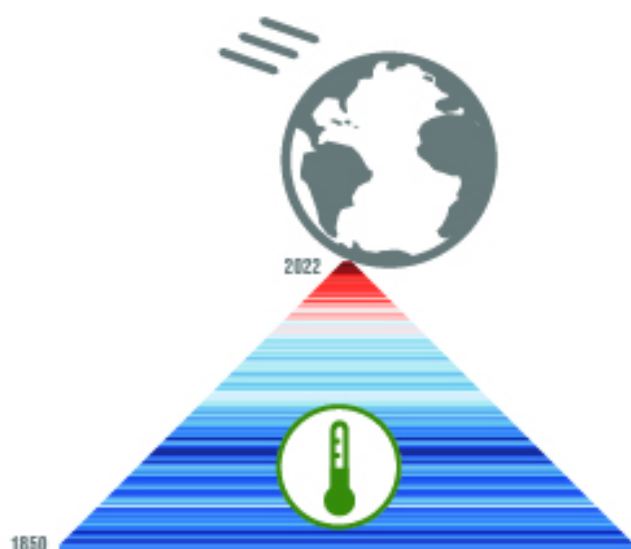

SDG 13: CLIMATE
ACTION

TAKE URGENT ACTION TO COMBAT CLIMATE CHANGE AND ITS IMPACTS

EARTH'S TIPPING POINT

STANDING AT THE BRINK OF CLIMATE CALAMITY

WHERE WE ARE

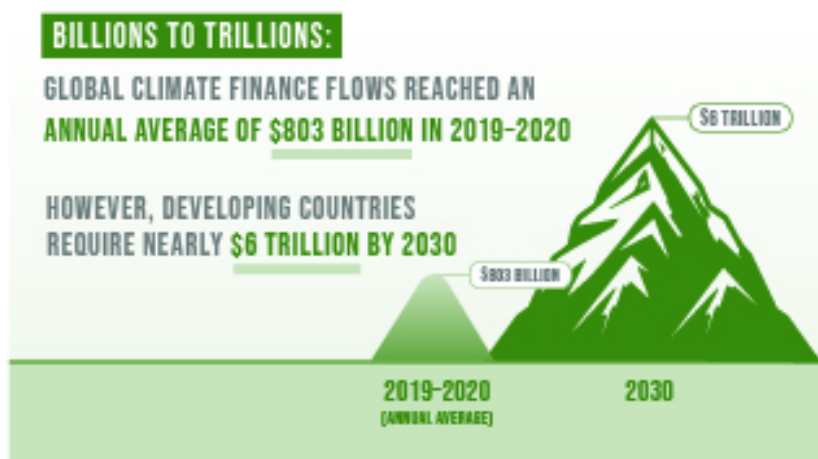

THE WORLD WILL EXCEED 1.5°C BY 2035 AND FACES A 2.5°C WARMING BY 2100

WHAT WE NEED

DEEP, RAPID AND SUSTAINED GHG EMISSION REDUCTIONS BY 43% BY 2030 AND TO NET ZERO BY 2050

THE RATE OF SEA-LEVEL RISE HAS **DOUBLED** IN THE LAST DECADE

HIGHLY VULNERABLE REGIONS

EXPERIENCE **15X HIGHER MORTALITY RATES** FROM DISASTERS COMPARED TO VERY LOW VULNERABILITY REGIONS (2010-2020)

SDG 13: CLIMATE ACTION

SamSIFL's Climate Action Plan: A Commitment to Sustainable Change

In alignment with Sustainable Development Goal (SDG) 13 - Climate Action, Samarkand State Institute of Foreign Languages (SamSIFL) embarks on a dedicated journey to address climate change challenges while promoting sustainability in all dimensions of its operations. This Climate Action Plan outlines the institution's strategic vision, objectives, and specific actions that will be undertaken to reduce the environmental impact, foster community education, and contribute to a more sustainable future.

The objectives of this Climate Action Plan are as follows:

1. Integration of Sustainability and Climate Action: Ensure that sustainability and climate action are incorporated into all areas of SamSIFL's operations, curriculum, and community engagement.
2. Environmental Impact Reduction: Decrease the institute's environmental impact and enhance resource efficiency across all operations and facilities.
3. Awareness and Education: Educate the SamSIFL community about sustainability and climate change, fostering an environment of awareness and responsibility.
4. Partnerships and Collaboration: Collaborate with stakeholders, including students, faculty, staff, local communities, government bodies, and industry partners, to advance sustainability initiatives.
5. Continuous Improvement: Continuously enhance sustainability performance, regularly monitoring progress towards sustainability goals and embracing emerging best practices.

Take urgent action to combat climate change and its impacts

SamSIFL's Climate Action Plan: A Commitment to Sustainable Change

SamSIFL's Climate Action Plan: A Commitment to Sustainable Change
Samarkand State Institute of Foreign Languages (SamSIFL) has undertaken a series of "green" objectives to address climate change and its ramifications, aligning with international sustainability goals. These objectives encompass various dimensions of climate action, including resilience building, policy integration, education enhancement, and collaborative efforts to promote a sustainable environment.

SamSIFL's Green Objectives:

1. Enhancing Resilience and Adaptive Capacity:
 - Objective: Strengthening resilience and adaptive capacity to effectively combat climate-related hazards and natural disasters within the institute's scope.
 - Significance: This objective focuses on bolstering the institution's ability to respond to climate-induced challenges, making it more resilient to environmental threats.
2. Integration of Climate Measures:
 - Objective: Integrating climate change measures into institute policies, strategies, and planning processes. The emphasis is on improving education, awareness, and building human and institutional capacity in areas such as mitigation, adaptation, impact reduction, and early warning systems.
 - Significance: This objective reflects SamSIFL's commitment to embedding climate consciousness within its core policies and operations. It seeks to create a climate-responsible culture and enhance the capacity to address climate-related issues.
3. Capacity-Building and Collaboration:
 - Objective: Promoting mechanisms to raise capacity for effective climate change planning and management, with a focus on partnering with universities in least developed countries and small regions, including special attention to women and youth.
 - Significance: SamSIFL recognizes the importance of international collaboration and capacity-building efforts, especially in regions vulnerable to climate change. The focus on gender and youth involvement underscores a commitment to inclusivity.

Take urgent action to combat climate change and its impacts

SamSIFL's Climate Action Plan: A Commitment to Sustainable Change

"Save the Planet" Program

In 2023, SamSIFL initiated the "Save the Planet" program, an institution-wide effort aimed at enhancing energy efficiency in all its buildings and facilities. The objective is to align with sustainable energy practices while maintaining a commitment to quality education and engagement.

Project "Yashil Makon": SamSIFL actively participates in the national campaign "Green Space," initiated by President Sh. Mirziyoyev, which aims to plant 125 million trees throughout Uzbekistan. Embracing this initiative, SamSIFL has planted over 10,000 trees, contributing to the environmental enhancement of the region.

SamSIFL's green initiatives are a testament to its dedication to climate action and environmental responsibility. By setting clear objectives, participating in national campaigns, and promoting energy efficiency, the institution demonstrates its commitment to a sustainable and eco-conscious future. These endeavors align with global sustainability efforts and contribute to a greener and more resilient world.
